01 ABOUT GACHI LINK

# Turn excess components into new opportunities.

A global online platform connecting buyers and sellers of surplus and excess electronic components.

## Built on electronic components trading experience

GACHI International supports component sourcing and inventory sales through its experience in electronic components distribution and global sourcing.
GACHI LINK brings that trading experience and supplier network online, connecting companies' available inventory with new demand.

02 CORE SERVICES

# Find the parts you need.
# Unlock your inventory’s potential.

Connecting buyers and sellers around their business needs.

SEARCH

## Inventory Search

Search listed inventory by Part Number and review component information and potential availability.

RFQ

## Quotation Requests · RFQ

Send your required parts and quantities.
We review listed stock and additional sourcing options.

EXCEL UPLOAD

## Surplus Inventory Listings

List available stock individually or upload an Excel file to introduce your inventory to potential buyers.

SUPPORT

## Transaction Support

GACHI supports the process from stock and terms confirmation through ordering and shipment.

03 TRANSACTION FLOW

# From inquiry to shipment.
# A clear view of the process.

Stock availability and commercial terms are confirmed before ordering.

## BUYER FLOW

Search / RFQ → Stock / Terms → Order / Payment → Ship / Deliver

### 01 Search & Inquiry

Search for parts or submit an RFQ with your Part Number, quantity and requirements.

### 02 Stock & Terms Confirmation

GACHI checks availability and confirms price, lead time and other commercial terms.

### 03 Order Confirmation & Payment

Proceed with the order and payment after agreeing to the confirmed quotation and terms.

### 04 Shipment Preparation & Delivery

Shipment and delivery proceed according to the agreed terms.

## How sellers participate

List stock → Buyer inquiry → Stock / terms → Order / shipment

Listed information and actual availability must be reconfirmed before a transaction.

04 SELLER ONBOARDING

# From sign-up to stock listing. Get started in five steps.

Take the first step toward new sales opportunities for your inventory.

1

### Create an account

Enter your company and contact details to create your GACHI LINK account.

2

### Verify your email

Complete verification using the email sent to your registered address.

3

### Log in

Sign in to your account and prepare to list your available inventory.

4

### Enter inventory details

Enter parts individually or use an Excel upload to provide Part Numbers, quantities and other details.

5

### Submit and maintain listings

Complete the upload and final submission, then keep quantities and target prices up to date.

### You do not need to list all your stock at once.

Start with a small selection of available inventory. Even a short stock list can be a starting point for new demand.

05 GET CONNECTED

# Start your next connection with GACHI LINK.

Looking for components, or have inventory available for sale?

BUY

## For buyers

Prepare the Part Number, manufacturer, required quantity and target delivery date.
Search inventory or request a quotation to check sourcing possibilities.

SELL

## For sellers

Prepare the Part Number, manufacturer, quantity, Date Code and target price.
Start listing your stock individually or through an Excel upload.
